Bladder outlet obstruction

Editors: P. H. Abrams, K. Höfner

P. H. Abrams, K. Höfner
Editorial 1

J. M. Reynard, P. Abrams
Bladder-outlet obstruction – assessment of symptoms 3

P. F. W. M. Rosier, J. J. M. C. H. de la Rosette
Is there a correlation between prostate size and bladder-outlet obstruction? 9

F. A. Madsen, R. C. Bruskewitz
Cystoscopy in the evaluation of benign prostatic hyperplasia 14

J. L. H. Ruud Bosch
Postvoid residual urine in the evaluation of men with benign prostatic hyperplasia 17

K. M.-E. Jensen
Uroflowmetry in elderly men 21

T. Koyanagi, K. Ameda, M. Nantani, K. Taniguchi, T. Matsuno, Y. Shinno
Preoperative cystometrography in patients with clinical benign prostatic hypertrophy 24

D. Griffiths
Basics of pressure-flow studies 30

C. S. Lim, P. Abrams
The Abrams-Griffiths nomogram 34

R. van Mastrigt, M. Kranse
Analysis of pressure-flow data in terms of computer-derived urethral resistance parameters 40

W. Schäfer
Analysis of bladder-outlet function with the linearized passive urethral resistance relation, linPURR, and a disease-specific approach for grading obstruction: from complex to simple 47

K. Höfner, A. E. J. L. Kramer, H. K. Tan, H. Krah, U. Jonas
CHESS classification of bladder-outflow obstruction. A consequence in the discussion of current concepts 59

A. Spångberg
Estimation of urethral resistance by curve fitting in the pressure-flow plot. Theory and experience in normal men and men with benign prostatic hypertrophy 65

J. Nordling
A clinical view of pressure-flow studies 70

Lasers in BPH

Editors: J. J. M. C. H. de la Rosette, J. M. Fitzpatrick

J. J. M. C. H. de la Rosette, J. M. Fitzpatrick
Editorial 73

A. P. Perlmutter, J. C. Vargas, R. Muschter
The effect of popcorn and carbonization on neodymium:YAG laser dosimetry in the canine model 74

A. M. Shanberg, D. E. Sawyer, I. S. Lee, L. W. Rodgers, L. A. Tansey, T. Ahlering
Depth of penetration of the neodymium:yttrium-aluminum-garnet laser in the human prostate and clinical results of high-dose laser energy in 50 patients 78

E. te Slaa, A. F. van Ettergem, C. A. van't Hof, F. M. J. Debruyne, J. J. M. C. H. de la Rosette
Durability of laser fibers 83

C. F. P. van Swol, R. M. Verdaasdonk, R. J. van Vliet, D. G. Molenaar, T. A. Boon
Side-firing devices for laser prostatectomy. An overview 88

H. Schulze
TULIP: transurethral ultrasound-guided laser-induced prostatectomy 94

J. J. M. C. H. de la Rosette, E. te Slaa, M. J. A. M. de Wildt, F. M. J. Debruyne
Experience with the Ultraline and Urolase laser fibers: is there any difference? 98

M. J. Manyak, G. P. Aulisi
Free-beam and contact laser ablation of benign prostatic hyperplasia with the KTP/Nd:YAG laser: efficacy and versatility 104

R. Muschter, A. Hofstetter
Technique and results of interstitial laser coagulation 109

G. Watson
Contact laser prostatectomy 115

A. J. Costello, D. G. Lusaya, H. R. Crowe
Transurethral laser ablation of the prostate – long-term results 119

T. A. Boon, C. F. P. van Swol, G. E. P. M. van Venrooij, H. P. Beerlage, R. M. Verdaasdonk
Laser prostatectomy for patients with benign prostatic hyperplasia: a prospective randomized study comparing two different techniques using the Prolase-II fiber 123

C. M. Dixon
A comparison of transurethral prostatectomy with visual laser ablation of the prostate using the Urolase right-angle fiber for the treatment of BPH 126

C. M. Dixon
Evaluating the efficacy, safety, and cost of lasers for the treatment of benign prostatic hyperplasia 130

A. Cannon, M. de Wildt, P. H. Abrams, J. J. M. C. H. de la Rosette
Urodynamics and laser prostatectomy 134

Renal cell carcinoma

Editors: U. Jonas, P. Anton

U. Jonas, P. Anton
Editorial 137

H. J. Tanke, R. J. Florijn, J. Vrolijk, A. K. Raap
Molecular cytogenetics: unraveling of the genetic composition of individual cells by fluorescence in situ hybridization and digital imaging microscopy 138

M. Wilhelm, U. Krause, G. Kovacs
Diagnosis and prognosis of renal-cell tumors: a molecular approach 143

P. Anton, H. J. Tanke, E. P. Allehoff, M. A. Kuczyk, C. G. Stief, U. Jonas
Localized renal-cell carcinoma: detection of abnormal cells in peritumoral tissue. A cytophotometry and immunocytochemistry study 149

S. Störkel, E. van den Berg
Morphological classification of renal cancer 153

F. F. Marshall, G. D. Steinberg, C. R. Pound, A. W. Partin
Radical surgery for renal-cell carcinoma: caval neoplastic excision, adrenalectomy, lymphadenectomy, adjacent organ resection 159

F. Steinbach, M. Stöckle, R. Hohenfellner
Current controversies in nephron-sparing surgery for renal cell carcinoma 163

C. G. Stief, H.-J. Schäfers, M. Kuczyk, P. Anton, K. Pethig, M. C. Truss, U. Jonas
Renal-cell carcinoma with intracaval neoplastic extension: stratification and surgical technique 166

H. H. Kirchner, P. Anton, J. Atzpodien
Adjuvant treatment of locally advanced renal cancer with autologous virus-modified tumor vaccines 171

J. Atzpodien, H. Kirchner, S. Duensing, E. Lopez Hänninen, A. Franzke, J. Buer, M. Probst, P. Anton, H. Poliwoda
Biochemotherapy of advanced metastatic renal-cell carcinoma: results of the combination of interleukin-2, alpha-interferon, 5-fluorouracil, vinblastine, and 13-cis-retinoic acid 174

G. H. Mickisch
Gene therapy on renal-cell carcinoma: magic bullet or tragic insanity? 178

E. Oosterwijk, F. M. J. Debruyne
Radiolabeled monoclonal antibody G250 in renal-cell carcinoma 186

Free papers
P. Ji, O. M. A. Karim, C. D. Boyd, J. L. Mostwin, W. S. Ward
Elastin morphology in normal and obstructed guinea-pig bladders. Localization of elastin to the trigone 191

B. Helpap, C. Riede
Nucleolar organizer regions in low- and high-grade carcinomas of the prostate 195

Announcements 200

Pediatric urological cancer

Editors: R. Hohenfellner, P. Gutjahr

R. Hohenfellner, P. Gutjahr
Editorial 201

R. J. Haas, P. Schmidt
Testicular germ-cell tumors in childhood and adolescence 203

P. Gutjahr
Progress and controversies in modern treatment of Wilms' tumors 209

M. Fisch, R. Bürger, U. Barthels, P. Gutjahr, R. Hohenfellner
Surgery in rhabdomyosarcoma of the bladder, prostate and vagina 213
